Assessment Requirements for NWPTRD022

Develop and modify trade waste policies and plans

Release: 1

Assessment Requirements for NWPTRD022 Develop and modify trade waste policies and plans

Modification History

Release	Comments
1	These Assessment Requirements were released in NWP Water Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- interpreting and applying legislation and policies applicable to trade waste
- assessing environmental impact using ISO 14001 where appropriate
- assessing waste treatment methods, processes, plant and equipment
- developing contingency plans
- preparing reports
- managing records
- using mathematical and scientific techniques to interpret test results
- gathering, interpreting and synthesising information (including current legislation and standards, stakeholder views and testing & monitoring results) to underpin the sound development and modification of trade waste policies and plans
- consulting stakeholders
- developing and modifying effective trade waste policies and plans that address the water organisation's objectives and requirements
- using data from monitoring arrangements to track the performance of the trade waste system and inform the review of the policies and plans
- preparing reports and recommendations for changes to the objectives of the policies and plans and their implementation

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- relevant legislation, policies, procedures,
- enterprise consultation processes
- risk assessment processes
- enterprise emergency response requirements
- trade waste management systems and records
- water quality parameters of significance to the wastewater system
- trade waste treatment and process technology
- wastewater collection, treatment, re-use and disposal systems
- personal protection and safety precautions for wastewater sampling including the requirements for relevant inoculations including:
 - Q fever
 - hepatitis A & B
 - polio
 - tetanus
 - diphtheria

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations. Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
