Assessment Requirements for NWPTRD023 Coordinate, implement and report on trade waste monitoring procedures

Release: 1

Assessment Requirements for NWPTRD023 Coordinate, implement and report on trade waste monitoring procedures

Modification History

Release	Comments
1	These Assessment Requirements were released in NWP Water Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using wastewater sampling and preservation techniques for on-site and laboratory testing
- interpreting and applying legislation and policies applicable to trade waste
- developing monitoring plans
- coordinating measuring, testing and sampling activities
- interpreting and evaluating sample analysis data
- assessing risks and hazards associated with sampling activities
- monitoring process inputs and outputs
- planning and conducting investigations
- assessing environmental impact using ISO 14001 where appropriate
- assessing waste treatment methods, processes, plant and equipment
- using appropriate personal protective equipment for protection against physical, chemical and biological hazards
- implementing monitoring and testing programs
- analysing test results
- investigating problems on-site
- monitoring treatment and disposal provisions on-site
- recording and reporting data

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- relevant legislation
- relevant enterprise policies for trade waste management
- water quality parameters of significance to the wastewater system
- personal protection and safety precautions for wastewater sampling, including the requirements for relevant inoculations including:
 - Q fever
 - hepatitis A and B
 - polio
 - tetanus
 - diphtheria
- standard industrial waste treatment methods, processes and procedures for retail commercial and light industrial organisations
- investigation procedures
- range of appropriate measuring, testing and sampling procedures
- customer expectations and requirements
- WHS

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors
