Assessment Requirements for PMBPROD340E Cure heavy off-the-road tyre repairs

Release: 1

Assessment Requirements for PMBPROD340E Cure heavy off-the-road tyre repairs

Modification History

Release 1. Unit code changed. Application changed. Elements and Performance Criteria changed. Range of Conditions removed. Assessment Requirements changed. Supersedes and is equivalent to PMBPROD340 Cure heavy off-the-road tyre repairs.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- cure heavy off-the-road tyre repairs at least once to meet job specifications.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- the functions and operating principles of pressure curing equipment, machine components and ancillary equipment
- heavy off-the-road tyre construction
- radial and bias ply construction
- common methods for curing tyre repairs using pressure curing systems and the process steps
- types and application of packing
- methods of identifying lug/position
- production workflow sequences
- typical quality standards required at each stage of the process
- key variables that may affect product quality or inspection result
- typical and atypical process and product problems, including early warning signs, possible causes and corrective actions
- organisational procedures relevant to the work environment or job role, including procedures for the emergency shutdown of equipment
- hazards that may arise in the job or work environment, and:
 - their possible causes
 - potential consequences
 - appropriate risk controls.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
