Assessment Requirements for PMBPROD367E Remove and replace conveyor belts

Release: 1

Assessment Requirements for PMBPROD367E Remove and replace conveyor belts

Modification History

Release 1. Unit code changed. Application changed. Elements and Performance Criteria changed. Range of Conditions removed. Assessment Requirements changed. Supersedes and is equivalent to PMBPROD367 Remove and replace conveyor belts.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- remove and replace conveyor belts at least once to meet plan and quality standards.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- the functions and operating principles of conveyor systems and ancillary equipment
- the stresses and tensions on working belts and common causes of failure
- types and application of joining methods
- impact of incorrect or faulty joining processes
- equipment certification requirements applicable to belt removal and replacement
- organisational procedures relevant to the work environment or job role, including procedures for the emergency shutdown of equipment
- hazards that may arise in the job or work environment, and:
 - their possible causes
 - potential consequences
 - appropriate risk controls.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
