Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- determining initial resource requirements and evidence collection activities relating to a crash incident
- observing road situations to identify safety issues related to road conditions, drivers and vehicles
- referring and reporting safety issues to internal and external stakeholders
- assessing road policing situations to identify traffic offences
- communicating with stakeholders
- preparing and driving police vehicles to deliver policing responses
- using road policing equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- work health and safety legislation
- jurisdictional policies and procedures related to work health and safety
- police safe driving techniques
- jurisdictional road laws and legislation
- traffic signals for controlling traffic
- jurisdictional policies and procedures related to initial response to crash incident scene including items of potential evidentiary value
- relevant equipment and personal protective equipment (PPE) used for road policing purposes.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and PPE currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
