Assessment Requirements for POLCOV008

Provide intelligence support to policing responses

Release: 1

Assessment Requirements for POLCOV008 Provide intelligence support to policing responses

Modification History

Release	Comments
1	These Assessment Requirements were released in POL Police Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- planning intelligence support responses
- identifying key personnel/stakeholders relying on support from intelligence sources
- collecting information to develop intelligence products and review their effectiveness
- analysing information for intelligence support responses
- creating intelligence response support plans to meet needs
- communicating and liaising with multiple stakeholders, including external agencies, to provide optimal intelligence support
- deciding which intelligence support matches predefined context and stakeholder needs
- reviewing support to identify and accommodate changes in intelligence needs
- negotiating and documenting intelligence support timelines and reporting arrangements
- delivering an intelligence briefing/presentation to key operational personnel/stakeholders
- evaluating intelligence support responses for continuous improvement opportunities
- reporting findings and results to personnel
- entering findings and results into management systems
- working collaboratively with other partner agencies, key personnel and stakeholders

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- information collection, analysis and interpretation research methods

- jurisdictional communication policies, methods, tools and techniques
- jurisdictional information technologies and their application to intelligence situations
- jurisdictional response policies and procedures
- design and development of intelligence products
- change management within organisational contexts
- stakeholder needs analysis
- information security protocols and classifications
- risk assessment concepts and techniques

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the companion volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
