POLFOR002 Conduct complex forensic crime and incident scene investigations

Release: 1

POLFOR002 Conduct complex forensic crime and incident scene investigations

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PUAPOL807 Conduct serious forensic crime and incident scene investigation. • Content and formatting updated to comply with new standards • Unit recoded POL • Title updated • Elements 1, 2 and 3 reworded. • Element 1 all PC reordered • New PC added to Element 2 • Two new PC added to Element 4 • PC 1.2, 1.3, 1.4, 1.5, 2.6 and 2.8 revised • PC 2.1 and 4.3 removed

Application

This unit describes the skills required to perform a detailed investigation of complex crime/incident scenes. This will include planning for and managing complex crime/incident scene investigations, examining evidence and reviewing the examination.

This unit applies to specialist police staff as part of the forensic investigation of complex crime or incident scenes.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to quality management, forensic investigations, and work health and safety (WHS).

Those undertaking this unit would be required to work autonomously and as part of a team. They would demonstrate the ability to critically analyse and evaluate crime scene related evidence to develop and test hypotheses. They would demonstrate knowledge of sciences as they apply to crime scene investigation while performing sophisticated tasks across a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Forensics

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Develop plan for complex crime/incident scene investigation	1.1 Establish type and nature of incident to determine the methodology and resource requirements. 1.2 Conduct an initial assessment of the incident to identify potential risks. 1.3 Assess the incident to determine what additional services may be required to progress the investigation. 1.4 Assess the forensic investigation plan continually to adjust to developments within the incident scene and/or new information. 1.5 Analyse information to develop a forensic investigation plan.
2. Manage complex crime/incident scene investigation	2.1 Conduct an initial assessment of scene/s to prioritise the order of examination and collection of evidence. 2.2 Perform a methodical search to identify and locate physical evidence. 2.3 Determine the sequencing of evidence collection and the use of resources to maximise evidentiary value. 2.4 Apply evidence collection techniques and sequencing to preserve evidence and prevent contamination. 2.5 Evaluate the evidence collection techniques to identify whether further evidence collection is required. 2.6 Interpret physical evidence and available information in order to develop a hypothesis. 2.7 Perform reconstructions and/or testing regimes to test hypothesis. 2.8 Negotiate stakeholder requirements throughout the forensic investigation. 2.9 Assess the incident continually to identify and manage potential risks.
3. Apply specialist forensic techniques	3.1 Assess evidence to determine whether specialist forensic techniques and evidence enhancement methods are required. 3.2 Select recording methods to maximise evidentiary value. 3.3 Record characteristics of evidence for further specialist analysis.

	3.4 Select collection and preservation techniques to protect evidence and prevent loss or cross contamination. 3.5 Apply evidence enhancement methods to maximise evidentiary value. 3.6 Facilitate the analysis of evidence by specialists for interpretation/identification purposes.
4. Review examination critically	4.1 Summarise information gathered during the forensic investigation to develop initial interpretations. 4.2 Assess the outcomes of the forensic investigation to reach a conclusion for recording and reporting purposes. 4.3 Analyse the outcomes of the examination to inform the current investigation. 4.4 Review forensic investigation and outcomes of examination to determine whether investigative needs have been met. 4.5 Liaise with stakeholders to determine whether further forensic investigation is required.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning					Reading					Writing					Oral communication					Numeracy				

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to PUAPOL807 Conduct serious forensic crime and incident scene investigation.
