Assessment Requirements for POLFOR003 Coordinate multi-discipline forensic investigation

Release: 1

Assessment Requirements for POLFOR003 Coordinate multi-discipline forensic investigation

Modification History

Release	Comments
1	These Assessment Requirements were released in POL Police Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- assessing information to scope multi-discipline investigation and develop an investigation plan
- conducting risk assessments which include considerations of evidence, people, work health and safety, the integrity of the investigation, and the environment
- undertaking planning activities to achieve forensic investigative outcomes
- acquiring, monitoring and deploying resources
- recording information using jurisdictional information management systems
- leading a team and managing personnel in a multi-discipline investigation
- communicating with stakeholders
- applying time management principles and prioritising examination process and workloads
- managing the safety, security, correct use and storage of resources (including equipment from other agencies)
- solving complex problems related to resource availability and competing priorities
- recording critical decisions
- evaluating information for the forensic investigation

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- jurisdictional policies and procedures related to crime scene investigation, occupational/work health and safety, case management systems, human resources, forensic investigations and multi-agency investigations
- roles and responsibilities of other disciplines, agencies and organisations related to multi-discipline complex investigations
- available financial, human and physical resources
- security classifications and access to levels of information
- risk assessment and management theory and practices
- cross jurisdictional legislation which impacts upon the conduct of investigations
- duty of care and workplace safety responsibilities
- specialist assistance available to assist with forensic investigations

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Consideration must be given to holistic assessment for this unit. Refer to advice in the companion volumes.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
