**Release: 1**

# Assessment Requirements for POLFOR055 Process forensic evidence

## Modification History

| Release | Comments                                                          |
|---------|-------------------------------------------------------------------|
| 1       | This unit was released in POL Police Training Package release 8.0 |

## Performance Evidence

The candidate must provide evidence on at least one occasion that they have met the elements and performance criteria and have demonstrated the ability to:

- assess evidence and case information to determine examination and logistical requirements, including priority and sequence
- handle exhibits to minimise risk and preserve continuity of evidence
- record and retrieve information using jurisdictional information management systems
- communicate with stakeholders to discuss relevance and requirements of examinations
- coordinate logistics of examinations with stakeholders.

## Knowledge Evidence

The candidate must provide demonstrated evidence that they have knowledge of:

- jurisdictional legislation, policies, and procedures relating to evidence collection, workplace health and safety, quality systems, information security and management systems, and evidence recording, handling, packaging, documentation, storage, continuity and retention
- basic principles of an examination plan
- role and requirements of specialists in the examination of forensic evidence.

## Assessment Conditions

Assessment must occur in operational workplace situations or, where this is not available, in simulated situations that replicate workplace conditions. Assessors of this unit must satisfy relevant vocational education and training legislation, frameworks and/or standards.
