Assessment Requirements for POLINV026

Plan police investigations

Release:

Assessment Requirements for POLINV026 Plan police investigations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package release 9.0.

Performance Evidence

The candidate must provide evidence on at least one occasion that they have met the elements and performance criteria and have demonstrated the ability to:

- conduct initial assessment of the incident or issue to determine whether an investigation is necessary
- communicate the investigation plan and outcome in writing and verbally
- communicate with stakeholders to facilitate the investigation
- demonstrate flexibility and adaptability by adjusting the investigation plan
- formulate security plan to address security requirements of the investigation, resources and security of exhibits
- identify and manage financial, human and physical resources
- identify and select investigation methods and techniques
- sequence activities and phases to guide implementation of investigation plan
- review procedures and outcomes for quality assurance purposes
- utilise jurisdictional information management system

Knowledge Evidence

The candidate must provide demonstrated evidence that they have knowledge of:

- court procedures and evidentiary requirements
- government and policy environments in which investigations will be managed
- investigation principles and case management systems
- jurisdictional operational, corporate and strategic plans
- jurisdictional policies and procedures related to conduct of investigations
- legislation that impacts upon conduct of investigations
- resources available to support the investigation
- security issues and classifications

Assessment Conditions

Assessment must occur in operational workplace situations or, where this is not available, in simulated situations that replicate workplace conditions.

Assessors of this unit must satisfy relevant vocational education and training legislation, frameworks and/or standards.
