Assessment Requirements for POLINV029 Manage information within investigations

Release:

Assessment Requirements for POLINV029 Manage information within investigations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package release 9.0.

Performance Evidence

The candidate must provide evidence on at least one occasion that they have met the elements and performance criteria and have demonstrated the ability to:

- collect information through the application of collection techniques
- collate information to facilitate analysis through the application of collation methods
- communicate with stakeholders to facilitate collection
- evaluate information to determine credibility, reliability, validity and relevance
- identify information gaps, invalid or irrelevant information
- interpret information to identify investigative actions and develop recommendations
- read and analyse complex information from a range of sources including:
 - digital
 - physical
 - human
- record information using information management systems, with consideration of security and risk

Knowledge Evidence

The candidate must provide demonstrated evidence that they have knowledge of:

- information analysis and interpretation techniques
- information collection techniques and methods
- information security and classifications
- jurisdictional information management systems, including digital evidence management
- jurisdictional policies and procedures related to information gathering, recording and dissemination
- right to information and privacy legislation

Assessment Conditions

Assessment must occur in operational workplace situations or, where this is not available, in simulated situations that replicate workplace conditions.

Assessors of this unit must satisfy relevant vocational education and training legislation,

frameworks and/or standards
