Release: 1

POLSAR001 Manage and evaluate search and rescue exercises

Modification History

Release	Comments
1	This unit was released in POL Police Training Package release 1.0 and meets the Standards for Training Packages.

Application

This unit describes the skills required to design, plan, manage and evaluate search and rescue (SAR) exercises, including communication and consultation with stakeholders.

This unit applies to police staff involved in police search and rescue operations. This unit applies to search and rescue exercises at a local level.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to resource acquisitions and exercise authorisations.

Those undertaking this role would work autonomously and supervise teams while reporting to senior staff. They would demonstrate adaptability while performing sophisticated tasks across a broad range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.
