Assessment Requirements for POLSAR011 Conclude police search and rescue operations

Release: 1

Assessment Requirements for POLSAR011 Conclude police search and rescue operations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package Release 5.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- concluding search and rescue (SAR) operation
- evaluating conduct of SAR operation
- recalling and accounting for assets
- communicating with stakeholders
- documenting outcomes of SAR operation.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- Commonwealth, national, state and territory legislation and arrangements relating to the conclusion of SAR operation
- jurisdictional policies and procedures relating to the conclusion of SAR operations
- jurisdictional reporting requirements for SAR operations
- jurisdictional policies and procedures relating to administration of SAR operation
- recovery searches
- incident scene management
- process for and requirements of coronial investigations
- jurisdictional re-supply guidelines
- judicial processes
- national manual relating to SAR.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
