Assessment Requirements for POLSAR014

Manage resources for police search and rescue operations

Release: 1

Assessment Requirements for POLSAR014 Manage resources for police search and rescue operations

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package
Release 5.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- establishing and managing coordination function within search and rescue (SAR) operation
- communicating with stakeholders
- acquiring, allocating, returning and replenishing resources
- managing and reviewing financial processes during SAR operation
- evaluating resource requirements in accordance with SAR incident
- reviewing management of resources during SAR operation
- developing recommendations for continuous improvement purposes.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- control and organisation command structure
- other organisations' and external authorities' operational capabilities and limitations
- jurisdictional financial delegations and arrangements
- jurisdictional legislation, policies and procedures relating to health, safety and wellbeing
- equipment and resources for SAR operations
- communication technologies and interoperability
- security and confidentiality of material
- resources including operational and non-operational personnel, animals, materials, equipment and consumables
- national manual relating to SAR
- debriefings and reviews
- report writing
- audit methodologies.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, such as in situations that can affect safety or occur only rarely, assessment can occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
