Release: 1

POLSAR017 Undertake initial search and rescue actions

Modification History

Release 1. This is the first release of this unit of competency in the POL Police Training Package
Release 5.0

Application

This unit describes the skills and knowledge required to conduct initial search and rescue (SAR) actions, including identifying search areas and conducting briefings when commencing a SAR operation.

This unit applies to those working as police officers involved in police SAR and incident management operations.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to resource deployment, conducting briefings and debriefings and work health and safety (WHS).

Those undertaking this unit would work autonomously and within teams while remaining responsible for reporting to senior staff. They would perform a range of complex tasks and demonstrate adaptability across a broad range of contexts, either in the field or within police station/office environments.

No licensing, legislative or certification requirements apply to unit at the time of publication.
