Release 1	This version released with PPM Pulp and Paper Manufacturing Training Package Version 3.0.

Qualification Description

This qualification describes the skills and knowledge of individuals who work in production assistant roles in the pulping and paper manufacturing industry. In these roles, individuals undertake a range of routine tasks relating to monitoring and controlling ancillary equipment and processes according to standard operating procedures and safe working practices, to assist a pulp or papermaking operations team.

These individuals may work across one or more of the following pulping and papermaking operations:

- wet end
- dry end
- pulping
- stock preparation and handling
- chemical recovery
- electrical power generation
- paper finishing and converting
- primary resource
- steam generation
- recovered fibre.

No licensing, legislative or certification requirements apply to this qualification at the time of publication, however some imported units in the elective bank relate to equipment use that require a high risk work licence. These units must be implemented in line with the parent training package.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

To achieve this qualification, competency must be demonstrated in:

- 11 units of competency:

- 4 core units plus
