**Release: 1**

## Assessment Requirements for PPMPRV301 Co-ordinate and direct clothing changes

### Modification History

| Release   | Comments                                                                                  |
|-----------|-------------------------------------------------------------------------------------------|
| Release 1 | This version released with PPM Pulp and Paper Manufacturing Training Package Version 3.0. |

### Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has co-ordinated and directed at least two clothing changes for paper manufacturing equipment, one of which is based on fault change.

In completing the above, there must also be evidence that the individual has for each clothing change:

- installed machine clothing according to manufacturer specifications
- communicated effectively and worked safely with others when undertaking clothing changes
- completed accurate basic records for clothing change processes.

### Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- methods used to assess clothing problems and associated production issues
- typical faults with machinery clothing and effects on machine and process productivity:
  - end of life
  - score mark
  - holes and tears
  - creases
  - narrow
  - blind
  - scold marks
  - compacted
  - scorched
- process stages and key control points undertaking clothing changes

- operational specifications for:
  - tensioning clothing
  - clothing guiding systems
- safe manual handling techniques for shifting machinery clothing
- workplace procedures relevant to clothing changes:
  - standard operating procedures
  - workplace health and safety, equipment lock-out, manual handling and use of personal protective equipment
  - communication reporting lines
  - recording and reporting clothing change processes.

## Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - skills must be demonstrated in a paper manufacturing facility or an environment that accurately represents workplace conditions
- resources, equipment and materials:
  - papermaking machinery
  - equipment used to remove and install clothing and dismantle and reassemble machinery
  - replacement clothing
  - personal protective equipment suitable for completing clothing changes
  - proforma or recording system for recording clothing change processes
- specifications:
  - workplace and standard operating procedures relating to machinery clothing changes, including health and safety, risks and hazards identification, plant isolation, quality, housekeeping and environmental requirements
  - maintenance schedule for machinery clothing changes
- relationships:
  - relevant personnel for the purposes of communicating information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
