PPMPRV320 Co-ordinate and direct clothing changes

Release: 1

PPMPRV320 Co-ordinate and direct clothing changes

Modification History

Release	Comment
1	Replaces equivalent unit FPPPRV320A Co-ordinate and direct clothing changes, which was first released with FPP10 Pulp and Paper Manufacturing Industry Training Package version 1.0. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to co-ordinate and direct machinery clothing changes to meet safety, quality and productivity requirements for product output.

The unit applies to production operators and technicians who work in a pulp or paper manufacturing facility. This typically involves working in a facility with complex integrated equipment and continuous operations.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Pulp and Paper Manufacturing

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.
1. Prepare machine and equipment for clothing change	1.1. Identify clothing problems causing production issues and determine need for clothing change. 1.2. Obtain new clothing to be installed and direct operators to

ELEMENTS	PERFORMANCE CRITERIA
	prepare it. 1.3. Prepare equipment for isolation and shut down equipment in line with organisational safety and standard operating procedures.
2. Remove and install machine clothing	2.1. Prepare and remove damaged or exhausted machine clothing. 2.2. Dismantle and remove machine parts in line with organisational safety and standard operating procedures. 2.3. Install new machine clothing in line with manufacturer's specifications. 2.4. Reassemble machine parts and replace as required. 2.5. Remove isolations and establish and confirm operational settings to required specification.
3. Prepare machine section for production	3.1. Inspect clothing section for potential hazards, assess and control associated risks. 3.2. Tension clothing to specification and to meet operational requirements. 3.3. Check and adjust clothing guiding system to operational specification. 3.4. Record and report clothing change process to appropriate personnel.

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Numeracy skills to:	interpret basic numerical settings on instruments and gauges and set to operational specification.
Oral communication skills to:	provide clear unambiguous instructions about requirements for clothing changes to operators.
Reading skills to:	- interpret: - workplace health and safety and standard operating procedures - manufacturer's specifications
Writing skills to:	complete accurate basic records for clothing change processes.
Planning and organising skills to:	efficiently and logically sequence the stages of preparing for and completing clothing changes.

Range of Conditions

Not Applicable
