PPMRES250 Distribute woodchips

Release: 1

PPMRES250 Distribute woodchips

Modification History

Release	Comment
1	Replaces equivalent unit FPPRES250A Distribute woodchips which was first released with FPP10 Pulp and Paper Manufacturing Industry Training Package Version 1. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to plan and distribute woodchips to storage facilities for the production of pulp.

The unit applies to production support operators who distribute woodchips in a pulp or paper manufacturing facility.

Licensing, legislative, regulatory, or certification requirements apply to this unit in some states & territories at the time of publication and may differ according to jurisdiction

Pre-requisite Unit

Nil

Unit Sector

Pulp and Paper Manufacturing

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.
1. Plan woodchip distribution	1.1. Check work order and equipment for woodchip distribution, in accordance with productivity requirements and workplace health and safety (WHS) requirements. 1.2. Estimate future storage size requirement from production and

ELEMENTS	PERFORMANCE CRITERIA
	distribution schedules. 1.3. Plan filling or distribution patterns to enable maximum woodchip storage. 1.4. Identify requirements for specific sequences in filling deposit areas. 1.5. Plan and confirm direction and extent for distribution and contraction, with relevant personnel. 1.6. Estimate chip distribution requirements considering the reach and limitations of the chip slinging and chip moving equipment.
2. Start up transfer equipment and chip distributor	2.1. Complete pre-startup checks for conveyors, chip distributor, and wheeled or tracked vehicles 2.2. Remove isolations. 2.3. Check deposit areas to ensure clearance for startup. 2.4. Inform other operators of impending startup. 2.5. Start conveyors and chip spreading processes and confirm correct transfer of woodchips.
3. Distribute woodchips to storage facility	3.1. Prepare equipment for distribution of woodchips. 3.2. Inspect storage to identify hazards within the vehicle operational area. 3.3. Communicate notice of impending operation to relevant personnel. 3.4. Maneuver woodchip distribution to enable filling or distribution over required area. 3.5. Distribute woodchips to storage facilities.

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Numeracy skills to:	- interpret instruments, gauges and data recording equipment - use measuring equipment for distribution tasks.
Oral communication skills to:	select and use appropriate spoken communication strategies with work colleagues and other personnel on site during woodchip distribution.

Reading skills to:	• read and interpret documentation, specifications and procedure manuals.
Problem solving skills to:	• maintain situational awareness in the work area.

Range of Conditions

Not Applicable
