PPMSPR330 Coordinate and implement stock preparation system shutdown

Release: 2

PPMSPR330 Coordinate and implement stock preparation system shutdown

Modification History

Release	Comments
Release 2	This version released with PPM Pulp and Paper Manufacturing Training Package Version 2.0.
Release 1	This version released with PPM Pulp and Paper Manufacturing Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to implement, assess and record stock preparation system shutdowns, in a pulp or paper manufacturing facility.

The unit applies to production operators and technicians who coordinate and implement stock preparation system shutdowns, in the stock preparation area. This typically involves working in a facility with complex integrated equipment and continuous operations.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Stock preparations operations (SPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Assess causes and effects of shutdown	1.1 Coordinate planned shutdown of stock preparation systems from work area instructions or maintenance schedules 1.2 Assess causes of stock preparation system shutdown according to

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	productivity requirements, environmental sustainability procedures, workplace health and safety and standard operating procedures (SOP) including the use of appropriate personal protective equipment, risks and hazards identification and housekeeping requirements 1.3 Identify and locate cause of unplanned shutdown 1.4 Assess effects of unplanned shutdown to determine impact on operations 1.5 Communicate unplanned shutdown according to organisational procedures
2. Implement shutdown procedures	2.1 Implement planned shutdown and check equipment 2.2 Respond to and rectify unplanned shutdown 2.3 Implement isolation requirements, according to work health and safety and SOP 2.4 Communicate shutdown information to relevant personnel
3. Record and report shutdown information	3.1 Record shutdown information, including corrective action 3.2 Report shutdown information to relevant personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Read and interpret equipment specifications, work place documentation, and procedures relevant to system operations
Writing	Record and report rectifications accurately and legibly, using correct technical vocabulary
Oral communication	Select and use appropriate spoken communication strategies with work colleagues and other personnel on site when co-ordinating and implementing stock preparation system shutdowns
Numeracy	Interpret instruments, gauges and data recording equipment during shutdowns
Navigate the world of	Access, navigate and enter computer-based information

Skill	Description
work	• Use electronic and other digital control systems to control equipment and processes as required
Get the work done	• Maintain situational awareness in the work area • Analyse and use sensory information to adjust process and to maintain and coordinate safety, quality and productivity

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
PPMSPR330 Coordinate and implement stock preparation system shutdown Release 2	PPMSPR330 Co-ordinate and implement stock preparation system shutdown Release 1	Minor changes to performance criteria, knowledge evidence, grammatical adjustment to title	Equivalent unit
