### Qualification Description

This qualification allows for the attainment of occupational specific competencies for those working in operational roles undertaking trade measurement inspection. It is suitable for individuals who need to apply a broad range of specialised knowledge and skills in specific contexts relating to the provision of trade measurement services to employers.

This qualification covers the broad range skills required to operate without supervision in a government trade or laboratory measurement inspection environment.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

### Packaging Rules

12 units of competency are required for this qualification:

- 8 core units
- 4 elective units

Choose a minimum of 2 electives from either Group A Trade measurement or Group B Laboratory measurement.

Choose the remaining electives from the lists below or from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect the occupational learning outcomes of this AQF qualification level. Seek further advice on selecting imported units of competency in the PSP Implementation Guide.

Where a prerequisite unit is attached to an elective unit it is identified by this symbol  $\perp$ .

The prerequisite units attached to any of the elective units must be undertaken and are additional to the number of elective units required for the qualification.

Elective units selected must not duplicate content already covered by other units in this qualification.

| <b>Core units</b>                      |                                                                       |
|----------------------------------------|-----------------------------------------------------------------------|
| PSPETH002                              | Uphold and support the values and principles of public service        |
| PSPGEN033                              | Use advanced workplace communication strategies                       |
| PSPGEN035                              | Provide workplace mentoring                                           |
| PSPREG003                              | Apply regulatory powers                                               |
| PSPREG005                              | Assess compliance                                                     |
| PSPREG008                              | Act on non-compliance                                                 |
| PSPREG013                              | Undertake inspections and monitoring                                  |
| MSL944001                              | Maintain laboratory/field workplace safety                            |
| <b>Elective units</b>                  |                                                                       |
| <b>Group A: Trade measurement</b>      |                                                                       |
| MSATMINS401A                           | Inspect a range of weighing instruments                               |
| MSATMINS402A                           | Inspect a range of liquid measuring instruments using volume measures |
| MSATMINS403A                           | Inspect a range of trading practices                                  |
| MSATMINS404A                           | Inspect a range of pre-packaged products                              |
| <b>Group B: Laboratory measurement</b> |                                                                       |
| MSATMVER403A                           | Verify inspector's class reference standards                          |
| MSL924001                              | Process and interpret data                                            |

|           |                                                                                           |
|-----------|-------------------------------------------------------------------------------------------|
| MSL925002 | Analyse measurements and estimate uncertainties<br>└ MSL924001 Process and interpret data |
| MSL934002 | Apply quality system and continuous improvement processes                                 |

## Qualification Mapping Information

This qualification supersedes and is equivalent to PSP42312 Certificate IV in Government (Trade Measurement).
