PSPBDR009 Analyse surveillance products

Release: 1

PSPBDR009 Analyse surveillance products

Modification History

Release	Comments
1	This unit was released in PSP Public Sector Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to PSPBORD404A Analyse surveillance products. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice

Application

This unit describes the skills required to receive and assess surveillance products against tasking requirements. It includes receiving surveillance products, assessing photographs, and processing, analysing, storing and disseminating information.

This unit applies to those working in roles responsible for the analysis of surveillance products.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously consulting with others as required, performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Competency Field

Border protection

Assessment Requirements for PSPBDR009 Analyse surveillance products

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- using technology and equipment
- analysing surveillance products and information
- communicating and liaising with diverse audiences
- obtaining and acting on feedback

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- enabling and allied legislation
- policy, procedures, guidelines, protocols and standard operating procedures
- organisational and jurisdictional values/ethics and codes of conduct
- surveillance operations
- relevant technology and equipment
- types of information
- client needs
- security requirements
- effective information management processes
- workplace and industry environment
- public sector legislation including work health and safety and environment related to analysis of surveillance products

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
