Application

This unit describes the skills required to ensure that each detector dog team develops and maintains a high level of operational effectiveness. It includes identifying development needs, coordinating the development of each detector dog team, and monitoring workflow and outcomes.

This unit applies to those working in roles responsible for the operational effectiveness of detector dog teams.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work autonomously supervising others, performing complex tasks in a familiar context.

No licensing, legislative or certification requirements apply to unit at the time of publication.
