Assessment Requirements for PSPPCM016

Plan and implement strategic sourcing

Release: 1

Assessment Requirements for PSPPCM016 Plan and implement strategic sourcing

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- networking, consulting and negotiating with the supply market, existing contractors and stakeholders
- writing a business case
- conducting market analysis and buying organisation analysis
- gathering and analysing organisational information to build procurement profile, market information and stakeholder requirements, and information on restricted products appropriate to the industry
- identifying, analysing and predicting trends
- applying complex government policy and inter-governmental agreements
- interrogating corporate systems, including Financial Management Information System (FMIS) or asset management system to obtain data
- analysing complex supply chains to identify risk, vulnerability and opportunity
- anticipating and interpreting market reaction
- planning procurement processes in alignment with business and organisational goals
- documenting procurement planning decisions and expected outcomes
- managing and updating procurement plans and sub-plans in line with strategic plans and budgets
- applying complex strategies to development of strategic plans, including corporate, budget and procurement plans and sub plans
- contributing to strategic and risk planning
- developing and managing electronic commerce
- exploiting market opportunities and initiatives in electronic commerce

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- Commonwealth, state and/or territory, or local government legislation, regulation, policies, practices, procedures and guidelines in relation to procurement, financial management, public sector obligations, consumer law, WHS, social policy and other relevant topics
- international treaties relevant to trade and procurement practices
- government and inter-governmental policy and agreements in relation to procurement practices
- principles and practices associated with Corporate Social Responsibility (CSR) principles, sustainability and environmental issues as applicable to procurement and market behaviours
- research and analysis as applied to complex outcomes, trends and predictions of markets and procurement changes
- codes of conduct, codes of practice and standards of individual behaviour relating to procurement decisions
- micro and macro-economic issues applicable to market behaviours and the impact of procurement
- implications for the organisation and market (suppliers) of key procurement strategies and arrangements
- whole of life costing considerations and value for money
- financial, costing and accounting issues relevant to procurement and contracts
- cultural issues relevant to strategic procurement and industry development in specific markets or market sectors

Assessment Conditions

This unit contains no specific industry-mandated assessment conditions. Guidance on suggested and recommended conditions and methods can be found in the Implementation Guide.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
