Assessment Requirements for PSPSEC016 Define information systems framework

Release: 1

Assessment Requirements for PSPSEC016 Define information systems framework

Modification History

Release	Comments
1	These Assessment Requirements were released in PSP Public Sector Training Package release 1.0 and meet the Standards for Training Packages. Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least two occasions.

- applying legislation, regulations and policies relating to government information systems security
- analysing process functions and problems
- preparing, compiling and writing complex documents and reports
- communicating complex relationships and processes effectively to users and management
- documenting complex relationships and processes
- identifying and viewing component parts as integral elements of the whole system
- reading and interpreting mathematical concepts and values embedded in specifications and complex technical documentation
- analysing and interpreting legal, regulatory and security requirements and organisation policies and procedures
- analysing and synthesising documentation, verbally delivered information, and observed behaviours
- consulting with diverse stakeholders to elicit relevant information for analysis

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

Operational knowledge of:

- legislation, regulations, policies, procedures and guidelines relating to government information system security
- equal employment opportunity, equity and diversity principles
- public sector legislation in the context of government information systems security
- sources of information about jurisdictional requirements for information systems
- equal employment opportunity, equity and diversity principles
- public sector legislation, including WHS and environment, in the context of government information systems security
- requires comprehensive knowledge of functions and structures in the organisation
- policies and strategies that apply across the jurisdiction
- information management principles and processes
- information security requirements

Assessment Conditions

Assessment of this unit requires evidence gathered over time in a workplace environment or one that closely resembles normal work practice and replicates the diverse conditions likely to be encountered when defining information systems.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
