PSPTIS123 Read and analyse special purpose LOTE texts to be translated

Release: 1

PSPTIS123 Read and analyse special purpose LOTE texts to be translated

Modification History

Not applicable.

Application

This unit describes the performance outcomes, skills and knowledge required to read and analyse a message in a special purpose LOTE text for the purpose of later transfer to a designated target language. It requires identifying the key linguistic, cultural, societal and situational elements to be conveyed in the language transfer process.

This unit applies to those working as translators of special purpose texts in any language.

Special purpose texts convey information in translated texts for a specific audience, or to a wide unknown audience in translated or signed texts, with the same functional effect as the source texts and which are accurate and appropriate to the context, target audience and end use. Special purpose texts contain significant equivalence problems between source and target texts and the text may have its own specific terminology and there may be a need to undertake extensive research and translate complex language and concepts, or significant implications for client reputation and image.

The skills in this unit must be applied in accordance with Commonwealth and State or Territory legislation, Australian Standards and industry codes of practice.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Competency Field

Translating and Interpreting

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1. Identify translating requirements and expectations of audience.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.
