Assessment Requirements for PSPTIS143

Use complex health terminology in two languages

Release: 1

Assessment Requirements for PSPTIS143 Use complex health terminology in two languages

Modification History

Not applicable.

Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role, and:

- use complex health terminology in two languages on at least two occasions, one in each language, including:
 - using complex health or allied health, social, cultural and professional conventions appropriate to the languages being used in a complex health or allied health setting, including:
 - customs, protocols and taboos
 - language varieties
 - idiom and colloquialisms
 - consistent use of forms of address.

Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- anatomy and body systems
- complex health and allied health specialties
- complex medical conditions and investigations
- complex medical procedures and relevant equipment principles of medications and prescriptions
- obtaining valid consent to treatment
- principles of mental health treatment
- principles of medications and prescriptions
- departments and sections in a hospital
- patient signs and symptoms
- requirements for obtaining valid consent to treatment
- relevant legislation and government policies
- security, confidentiality and privacy
- information sources for increasingly complex health knowledge and terminology
- issues around voluntary assisted dying and end of life decisions
- post mortem issues
- organ donation issues

- advanced care directives
- medical power of attorney
- Work Health and Safety (WHS) relevant to working in complex health contexts, including hygiene and infection control.

Assessment Conditions

Skills must be demonstrated in a workplace or simulated environment that reflects workplace conditions.

Assessment must ensure access to:

- case studies or examples of diverse interpreting assignments in complex dialogue or monologue settings in specialist health or allied health contexts.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors.
