## Application

This unit describes the skills required to provide compliance information on vehicle configurations to transport industry clients. It includes identifying client information requirements, providing detailed compliance information to clients and confirming client understanding. This requires knowledge of legislation, conditions and restrictions on vehicle configurations and loads and the requirements for inspections and permits for particular vehicle configurations.

This unit applies to those working in road transport regulatory roles who are required to explain the conditions and restrictions applying to vehicle configurations for the movement of loads.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently in consultation with others, performing routine tasks in a range of familiar contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

## Competency Field

Transport

## Elements and Performance Criteria

| ELEMENTS                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes                     | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.                                                                                                                                                                                                                                                                        |
| <b>1. Identify client information requirements</b>           | 1.1 Greet clients and establish any special client circumstances using communication suited to the particular client.<br>1.2 Obtain information from transport industry clients about the loads to be moved, the intended origins and destination, vehicles and routes.<br>1.3 Manage communication difficulties or refer for assistance.                                                                                                                                      |
| <b>2. Provide detailed compliance information to clients</b> | 2.1 Explain types of configurations and load requirements in relation to the loads being moved.<br>2.2 Detail conditions and restrictions for configurations, loads and dimensions in relation to the proposed loads and routes.<br>2.3 Provide information on any requirements for inspections, permits and notices in accordance with regulations of road traffic authorities.<br>2.4 Provide information in a form that suits the purpose and circumstances of the enquiry. |
| <b>3. Confirm client understanding</b>                       | 3.1 Obtain confirmation that the client has received sufficient information to ensure compliance when determining vehicle configurations for particular loads.<br>3.2 Confirm client knowledge of inspection and permit requirements in relation to the loads being moved.<br>3.3 Maintain confidentiality.                                                                                                                                                                    |

## Foundation Skills

Foundation skills are embedded within the elements and performance criteria of this unit.

## Unit Mapping Information

This unit supersedes and is equivalent to PSPTRAN411 Provide information on vehicle configuration compliance.
