- completing organisational documentation
- completing reporting requirements
- concluding tasks
- following organisational policies and procedures
- identifying and correctly using equipment and resources
- leading crew to perform tasks
- maintaining shared situational awareness
- monitoring and reporting on progress
- obtaining briefing from designated officer
- preparing crew for tasks
- using communication equipment

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements, performance criteria and range of conditions and includes knowledge of

- communication flow requirements to meet organisational command structure
- communication methods
- equipment and resources
- organisational documentation, policies and procedures
- progress monitoring (plan, do, check and adjust)
- report and documentation requirements
- resource management responsibilities and systems
- types of incidents

- Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) requirements including risk mitigation

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in industry approved simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, equipment, tools and personal protective clothing and equipment currently used in industry
- applicable documentation including organisational procedures, industry standards, equipment specifications, regulations, codes of practice and operation manuals.
