Assessment Requirements for PUAOPE029 Conduct liaison during emergency events

Release: 1

Assessment Requirements for PUAOPE029 Conduct liaison during emergency events

Modification History

Release 1. This is the first release of this unit of competency in the PUA Public Safety Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying appropriate decision-making tools to achieve outcomes
- applying work health and safety (WHS)/occupational health and safety (OHS) requirements
- completing, disseminating and maintaining reports and documentation
- concluding liaison activities
- coordinating and monitoring provision of support
- establishing liaison and confirming cooperative arrangements
- exchanging information
- following organisational policies and procedures
- maintaining situation awareness
- managing stress and fatigue
- participating in briefings and debriefings
- reviewing liaison activities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- capability of organisational resources
- common operating picture
- communications processes and systems
- electronic data exchange and information management systems
- legislative requirements
- organisational documentation, policies, and procedures
- organisational planning requirements
- process and procedures for briefing and debriefing
- response and/or recovery organisational structures
- sources of information and/or documents
- WHS/OHS requirements, including risk mitigation.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- appropriate materials, equipment, tools, and personal protective equipment (PPE) currently used in industry
- incidents or simulations of incidents in a multi-agency response environment
- applicable documentation, including organisational procedures, industry standards, national resource sharing arrangements, equipment specifications, regulations, codes of practice and operation manuals.
