Assessment Requirements for PUARCV003 Work in a recovery context

Release: 1

Assessment Requirements for PUARCV003 Work in a recovery context

Modification History

Release 1. This is the first release of this unit of competency in the PUA Public Safety Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include the following as they relate to recovery scenarios:

- communicating effectively with disaster-impacted individuals
- following organisational policies and procedures
- maintaining personal wellbeing and self-care
- outlining recovery activities related to the emergency management phases of prevention, preparedness, response and recovery
- supporting a diverse range of disaster-affected individuals and communities
- working collaboratively with disaster-affected individuals, communities and other stakeholders.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- aspects of recovery:
 - early recovery
 - medium to longer-term recovery
 - preparedness and activation
 - relief - typically immediate
- community-led recovery approaches
- communication channels used in disaster recovery
- definitions of disaster, recovery and resilience
- disaster-affected people and communities
- diversity and inclusion
- effective communication principles
- factors for consideration when working in a recovery environment
- methods of communication used in disaster recovery
- media policy

- National Principles for Disaster Recovery
- principles for communicating in recovery
- prevention, preparedness, response and recovery (PPRR) phases of emergency management, their intersection and activities undertaken to support recovery and resilience
- recovery environments
- recovery stakeholders
- self-care
- transition from recovery to mainstream services/ongoing community development, renewal and regeneration
- typical reactions that people exposed to a traumatic event may experience.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
