Employability Skills Summary

Employability Skills Summary for PUA31102 Certificate III in Public Safety (Driving in a Threat Environment)

Employability Skills are part of a unit of competency.

Employability Skills statements from a selection of units of competency from the PUA31102 Certificate III in Public Safety (Driving in a Threat Environment) have been reproduced in the table below.

This table provides an example of Employability Skills for the qualification because Employability Skills within a qualification will vary depending on the qualification packaging options.

Public Safety qualifications have core units (which must be achieved) and elective units (where there is a choice of units which must be achieved) so different Employability Skills Summaries are possible within the one qualification, depending on the package of core units and chosen elective units. Employability Skill	Employability Skills Statement
Communication	• direct a vehicle at night • follow instructions/directives • give feedback/assistance to other team members in an appropriate manner • read and implement written or verbal orders and procedures • read maps and use navigational aids • rectify and/or report any vehicle faults • report information verbally • respond to directions from a co-driver and a guide, both with and without the assistance of external aids • use verbal and non-verbal communication techniques including hand signals, language style, active listening
Teamwork	• apply knowledge of composition of teams and roles and

	responsibilities of team members • apply team work principles and strategies • conduct assessment as a team activity • contribute to team activities • encourage other team members • participate in a team • recognise individual differences in the workplace, to value these differences and to adjust behaviour to account for these differences • use techniques for supporting others
--	--

Problem solving	- analyse difficult terrain to determine whether it is trafficable, and if so, what are the implications for vehicle preparation, safety of passengers and load planning - apply contingency actions that minimise risk - apply vehicle contingency actions when required - apply tactical deployment drills - confirm the ability to reduce vulnerability through preparation of the vehicle, the use of camouflage and concealment, and the application of contingency actions that minimise risk - deal with contingencies related to an emergency that may occur - navigate vehicle at night using navigational equipment - report any faults with night fighting equipment to appropriate personnel, rectify and/or return equipment
Initiative and enterprise	- prepare vehicle, which may include reporting deficiencies to the supervisor and taking remedial action - understand work environment including all operational road transport situations, including a variety of road, terrain, weather and vegetation conditions and a range of threatening situations
Planning and organising	- camouflage vehicle from observation, surveillance and detection - carry out contingency actions to prevent or minimise damage to the person, the vehicle and the load, both when travelling alone and in convoy with other vehicles - configure a vehicle for night driving - plan tasks and discuss with a supervisor - prepare a vehicle for driving at night - prepare a vehicle for driving at night using night fighting equipment - prepare for reconnaissance of the terrain to be traversed by map and/or visual observation, identifying potential hazards - prepare vehicle for tactical employment and operational driving
Self-management	- encourage other team members - ensure personal behaviour shows sensitivity to the differences between colleagues
Learning	- learn about Defence Road Transport Instructions, Driver's Handbook, Vehicle user's handbook - learn about occupational health and safety requirements for driving a vehicle at night - learn about standing orders, routine orders, procedures manuals, doctrine pamphlets, job guides and other publications - learn about tactical deployment procedures including convoy driving procedures, actions at a halt and occupation of a hide or administrative position - learn about the application of counter-surveillance doctrine and procedures and the employment of operational driving

	techniques
Technology	• conduct serviceability check of the vehicle using night fighting equipment • fit specialist 'blackout' lighting equipment to vehicles • obtain specialist equipment appropriate to the task and checked for serviceability • use technology

Packaging Rules

Code	Core Units
PUADEFEQ001C	Work with equity and diversity
PUADEFTP001B	Operate a vehicle in an environment of threat
PUADEFTP002B	Operate a vehicle at night
PUADEFTP003B	Operate a vehicle over difficult terrain
PUADEFTP004B	Operate a vehicle using night fighting equipment (NFE)
BSBCMN311A	Maintain workplace safety
TDTF1097B	Apply fatigue management strategies
TDTF1397B	Coordinate breakdowns and emergencies
TDTH297C	Plan and navigate routes

Code	Elective Units
BSBSUS201A	Participate in environmentally sustainable work practices
PUACOM001C	Communicate in the workplace
PUACOM002B	Provide services to clients
PUADEFCA005B	Operate communications equipment
PUADEFTP005B	Operate a multi-axle trailer
PUADEFEO201C	Respond to fire
PUADEFRI001B	Treat risk within Defence at an operational level
PUADEFRI002B	Conduct risk assessment in a Defence environment
PUAEME001B	Provide emergency care
PUATEA001B	Work in a team
TDTB797B	Carry out maintenance on trailers
TDTB897B	Carry out inspection on trailers
TDTB2901A	Use and maintain minor mechanical equipment
TDTC197B	Drive vehicle

Code	Core Units
TDTC297B	Drive light rigid vehicle
TDTC397B	Drive medium rigid vehicle
TDTC497C	Drive heavy rigid vehicle
TDTD197B	Shift materials safely using manual handling methods
TDTD497B	Load and unload goods/cargo
TDTD1697B	Load and unload explosive and dangerous goods
TDTE897B	Process workplace documentation
TDTF1297B	Apply safe procedures when handling/transporting dangerous goods or explosives

NOTES

BSB units have been imported from the BSB01 Business Services Training Package. TDT units have been imported from the TDT02 Transport and Distribution Training Package.

Information about customising PUA00 Public Safety Training Package qualifications is on page [12](#).
