Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- conduct all weapon drills as listed in the Range Statement
- fire the weapon using, as a minimum, ball ammunition
- act as part of a team
- recognise the limit of own authority.

Assessment must also confirm that operators meet the specified minimum requirements as laid down by the relevant Service Chief.

Consistency in performance

Competency should be demonstrated on a live firing range.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed using live ammunition on a live firing range.

Note: In Defence the assessment and training are conducted in accordance with the current weapons pamphlet. This would include 'dry' assessment to ensure that a safe environment is maintained.

Specific resources for assessment

Access is required to:

- service rifle
- ammunition
- live firing range.

EVIDENCE GUIDE

Method of assessment

In a public safety environment assessment is usually conducted via direct observation in a training environment or in the workplace via subject matter supervision and/or mentoring, which is typically recorded in a competency workbook.

Assessment is completed using appropriately qualified assessors who select the most appropriate method of assessment.

Assessment may occur in an operational environment or in an industry-approved simulated work environment.

Forms of assessment that are typically used include:

- direct observation
- interviewing the candidate
- journals and workplace documentation
- third party reports from supervisors
- written or oral questions.
