- supervised post-race clean-up.

### Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- specific customer requirements for special events, including access arrangements and cultural requirements and protocols
- types of equipment and procedures for their operation and maintenance
- inventory requirements and methods for tracking and monitoring
- signs of faulty equipment, machinery and infrastructure
- techniques for preparing rosters and time management in the completion of workplace tasks
- racing industry safety requirements and safe operating procedures relating to:
  - identifying and preventing hazards
  - controlling and minimising risks
  - eliminating hazardous substances and materials
  - safe use and operation of equipment and machinery
  - safe manual handling procedures
  - features of emergency evacuation plans
- engagement of contractors.

## Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
  - a racing workplace or an environment that accurately reflects performance in a real race meeting setting
- resources, equipment and materials:
  - typical resources and workplace documentation required for race meeting operations
  - resources required for special events
- relationships:
  - access to staff, contractors or other relevant people.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
