- prepared to ride in jump outs, including:
 - followed instructions of trainer, barrier attendants and starter
 - evaluated risks and hazards associated with activities
 - warmed up horses
- rode in jump outs from barrier safely, including:
 - used appropriate strategies to control and settle horses in barriers
 - galloped horses in company
 - cooled down horses after jump outs.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and procedures for jump outs
- types and purpose of approved gear and personal protective equipment
- barrier attendant and starter roles and duties
- common horse behaviour, social traits and vices that relate to horse behaviour around and in barriers
- track rules and relevant rules of racing
- racing industry standards and expectations, including:
 - communication procedures within stable and wider racing industry
 - animal welfare requirements
 - workplace health and safety requirements, including safe operating procedures and risk assessment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - safe handling, riding and jump out areas, such as racing stables, and training and racetracks
- resources, equipment and materials:
 - various thoroughbred horses assessed as suitable for the skill and experience of the individual
 - appropriate and correctly fitted racing industry-approved gear and equipment for individual, horse and activity
- specifications:
 - trainer instructions.

Training and assessment strategies must show evidence of the use of guidance provided in the *Companion Volume: User Guide: Safety in Equine Training*.
