# RII20315 Certificate II in Underground Coal Mining

## Modification History

Release	Comments
1	This qualification replaces RII20313 Certificate II in Underground Coal Mining. Packaging Rules wording changed to clarify intent. Elective Groups A and B combined; Group C becomes Group B. Added BSBDIV301 Work effectively with diversity to Group C electives. Added qualification mapping information table.
2	This version was released with RII Resources and Infrastructure Training Package version 3.0.

## Qualification Description

This qualification reflects the role of an individual working as an operator in an underground coal mine, who performs a range of mainly routine tasks using limited practical skills and fundamental operational knowledge, in a defined context working under direct supervision.

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

## Entry Requirements

There are no entry requirements for this qualification.

## Packaging Rules

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Total number of units = 10

**5 core units** plus

**5 elective units**, of which:

- at least four (4) must be chosen from Group A
- no more than one (1) may be chosen from Group B
- no more than one (1) may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect current occupational and learning outcomes of this AQF qualification level.

There are both licensed and non-licensed units of competency relating to high risk work in the Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.
