Release	Comments
1	This qualification was first released in RII Resources and Infrastructure Industry Training Package Release 10.0.

## Qualification Description

This qualification reflects the role of individuals, including open cut examiners, working in surface coal mines, who perform tasks involving a broad range of day-to-day, operational activities in their area of responsibility. They are responsible for ensuring a safe work environment through applying the safety and health management system in and around work areas of surface excavation, including monitoring the quantity and quality of output, supervising others and applying solutions to non-routine problems.

Licensing, legislative and certification requirements that apply to this qualification can vary between states, territories, and industry sectors, and must be sourced from state jurisdictions prior to applying the qualification.

## Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.
