

# RII40513 Certificate IV in Resource Processing

Release 4

# **RII40513 Certificate IV in Resource Processing**

#### **Modification History**

Release	Comments
1	Replaces RII40509 Certificate IV in Resource Processing.  Packaging rules changed to reformat elective groups.
2	Updated superseded imported electives.
3	Removed pre-requisite to HLTAID006.
4	Corrected modification history.

### **Qualification Description**

This qualification reflects the role of employees such as a supervisor or team leader working in a metal or coal processing facility. They perform tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the quantity and quality of the output of others, contribute to the development of technical solutions to non-routine problems and apply safety management plans to the workplace. Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the qualification.

## **Entry Requirements**

There are no entry requirements for this qualification.

Approved Page 2 of 5

#### **Packaging Rules**

Requirements for completion of the qualification

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Successful completion of twelve (12) units of competency made up of:

- four (4) group A core units, and
- eight (8) elective units of which:
  - one (1) must be chosen from group A
  - at least one (1) must be chosen from group B
  - up to four (4) must be chosen from the group C
  - up to two (2) units may come from Certificate III, Certificate IV or Diploma level from this, or any other Training Package or accredited course

Units chosen must be relevant to the job function.

There are both licensed and non-licensed units of competency relating to high risk work in the Resources and Infrastructure Industry Training Package. To be appointed under any statutory requirements in related roles, units of competency should be selected to meet the state/territory licensing requirements.

There are no prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.

Core units of competency				
Unit code	Unit title			
RIICOM301D	Communicate information			
RIIERR401D	Apply and monitor surface operations emergency preparedness and response systems			
RIIGOV401D	Apply, monitor and report on compliance systems			
RIIWHS301D	Conduct safety and health investigations			
Electives				
Group A				
Unit code	Unit title			
RIIRIS301D	Apply risk management processes			
RIIRIS402D	Carry out the risk management processes			
Group B				
Unit code	Unit title			
PMAOPS411B	Manage plant shutdown and restart			
RIIRAI401D	Apply and monitor mine services and
