Qualification Description

This qualification reflects the role of emergency response and rescue team leaders or coordinators working in the resources and infrastructure industries, who perform tasks involving a broad range of skilled applications in a wide variety of contexts, which involve application of discretion and judgement in selecting equipment, services or contingency measures.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

Nil

Packaging Rules

Total number of units = 10

4 core units plus

6 elective units, of which:

- at least four (4) must be selected from the electives listed below
- up to two (2) may be selected from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

Elective units must be relevant to the work environment and the qualification, maintain the overall integrity of the AQF alignment and contribute to a valid vocational outcome.
