RII60713 Advanced Diploma of Surface Coal Mining Management

Modification History

Release	Comments
1	Replaces RII60709 Advanced Diploma of Surface Coal Mining Management.
2	Corrected modification history.

Qualification Description

This qualification reflects the role of open cut coal mine managers who perform tasks that are broad, specialised, complex and technical and include strategic areas and initiating activities. They are required to demonstrate self-directed application of theoretical and technical knowledge and initiate solutions to technical problems or management requirements.
No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

Requirements for completion of the qualification

The following provides the packaging rules for this qualification, followed by the list of relevant units of competency.

Successful completion of fourteen (14) units of competency made up of:

* six (6) core units, and
* eight (8) elective units of which:
    * at least four (4) must be chosen from group A
    * up to four (4) may be chosen from group B
    * up to two (2) units may be chosen from Diploma or Advanced Diploma level from this or any other Training Package or accredited course

Units chosen must be relevant to the job function.

There are no prerequisites to imported units listed in this qualification. Where a unit is imported as an elective care must be taken to ensure that all prerequisites specified are complied with.
