RIIBLA301D Conduct surface shotfiring operations

Release: 3

RIIBLA301D Conduct surface shotfiring operations

Modification History

Release	Comment
1	This unit replaces RIIBLA301A Conduct surface shotfiring operations.
2	Knowledge evidence was missing is release 1 of RIIBLA301D.
3	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to conduct surface shotfiring operations in the Resources and Infrastructure Industries.

This unit is appropriate for those working in operational roles.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Elements and Performance Criteria

1. Plan and prepare to conduct surface shotfiring operations	1.1 Access, interpret and apply shotfiring documentation and ensure the work activity is compliant 1.2 Obtain, confirm and apply shotfiring requirements and work instructions before proceeding 1.3 Identify, manage and report all potential hazards, risks and environmental issues 1.4 Select and wear personal protective equipment appropriate to the work activities 1.5 Obtain and interpret emergency procedures and be prepared for fire/accident/emergency 1.6 Coordinate vehicle, equipment and personnel support requirements 1.7 Arrange and/or ensure survey of blast area is complete and reported to appropriate personnel and records are maintained 1.8 Access, interpret and apply geological data and weather
--	--

	conditions required to complete the work 1.9 Carry out calculations to enable pattern design, loading and tying in of shots 1.10 Identify and confirm the explosives and accessories required for the work
2. Supervise the store and transport explosives and accessories	2.1 Ensure explosives and accessories are safely and correctly stored 2.2 Ensure inventory control systems are accurately and correctly maintained 2.3 Ensure explosives and accessories are transported to blast area and segregate correctly 2.4 Ensure that explosives are not left unattended 2.5 Identify and dispose of any deteriorated or out of date explosives and accessories correctly
3. Prepare for charging	3.1 Secure shot area in accordance with procedures and blast plan 3.2 Establish and communicate access routes to shot area for authorised persons and vehicle 3.3 Identify hole locations and any non-conforming conditions in preparation for charging 3.4 Establish stemming stockpile and accessories on shot site
4. Charge holes	4.1 Supervise blast personnel during loading operations 4.2 Prime and charge holes in accordance with the blast plan 4.3 Ensure blast holes are charged in accordance with loading plan and identify non-conforming conditions 4.4 Ensure blast holes are stemmed in accordance with blast plan 4.5 Test equipment and accessories 4.6 Maintain records 4.7 Conduct blast monitoring
5. Conduct the blast	5.1 Carry out pre blasting procedures and establish exclusion zone 5.2 Carry out tying in, in accordance with the blast plan 5.3 Supervise all personnel within the blast area during tie-in and initiation 5.4 Initiate the blast appropriately 5.5 Carry out and record activities in accordance with the blast plan

6. Complete post blast activities	6.1 Carry out post blast inspection 6.2 Deal with misfires 6.3 Declare area safe for re-entry 6.4 Carry out post-blast coordination 6.5 Dispose of damaged, deteriorated and surplus explosives and detonators 6.6 Complete reports
7. Carry out equipment maintenance	7.1 Carry out inspection and required maintenance after shotfiring operations 7.2 Maintain maintenance records

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
