RIICWD519D Prepare detailed design of intermodal facilities civil works

Release: 2

RIICWD519D Prepare detailed design of intermodal facilities civil works

Modification History

Release	Comment
1	This unit replaces RIICWD519A Prepare detailed design of inter modal facilities civil works
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to prepare detailed design of intermodal facilities civil works in Civil construction.

This unit is appropriate for those working in management or technical specialist roles.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Unit Sector

Civil construction

Elements and Performance Criteria

1. Plan and prepare for the detailed design of intermodal facilities civil works	1.1 Access, interpret and apply intermodal facilities civil works design documentation and ensure the work activity is compliant 1.2 Obtain, read, interpret, clarify and confirm work instructions 1.3 Identify and confirm the intermodal facilities civil works project requirements and information 1.4 Prepare a design plan which makes best use of the available resources and meets the design requirements
2. Undertake the detailed design of intermodal facilities civil works	2.1 Interpret and analyse data and identify viable options 2.2 Interpret and analyse data and recommend the preferred option 2.3 Complete the detailed design of the intermodal facilities civil

	works 2.4 Prepare a cost estimate for executing the designed intermodal facilities civil works 2.5 Participate in the review of the intermodal facilities civil works design with peers and stakeholders 2.6 Complete the documentation of the intermodal facilities civil works 2.7 Monitor and coordinate the progress of other team members involved in the design process 2.8 Gain design approval
3. Finalise design processes of intermodal facilities civil works	3.1 Ensure filing of design records is completed 3.2 Complete and submit design cost and other reporting 3.3 Participate in performance review of the design process 3.4 Seek client feedback and contribute to the verification of the design 3.5 Close out all systems
4. Support and review the application of the design of intermodal facilities civil works	4.1 Provide clarification and advice to those applying the design 4.2 Review the application of the design and recommend changes for continuous improvement 4.3 Contribute to the validation of the design

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.

Unit Mapping Information
