RIIENV202E Suppress airborne contaminants

Release: 1

RIIENV202E Suppress airborne contaminants

Modification History

Release	Comments
Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to suppress airborne contaminants in the resources and infrastructure industries.

It applies to those working in operational roles. They generally work under supervision to undertake a prescribed range of functions involving known routines and procedures and take responsibility for the quality of work outcomes.

Licensing, legislative and certification requirements may apply to this unit and can vary between states, territories and industry sectors. Users must check requirements with relevant body before applying the unit.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare for suppressing airborne contaminant operations	1.1 Obtain, interpret and confirm work requirements 1.2 Access, interpret and apply documentation required to suppress airborne contaminants 1.3 Select the appropriate airborne contaminant suppression method to eliminate, suppress or minimise airborne contaminants according to workplace procedures 1.4 Identify and address potential risks, hazards and environmental issues, and implement control measures according to workplace procedures 1.5 Select and wear personal protective equipment appropriate for work activities 1.6 Identify and communicate potential problems with others as required and according to workplace procedures 1.7 Obtain and interpret emergency procedures, and be prepared for emergency situations

ELEMENT	PERFORMANCE CRITERIA
2. Eliminate, suppress, minimise airborne contaminants	2.1 Operate the airborne contaminant suppression equipment 2.2 Adjust the airborne contaminant suppression equipment as required according to workplace procedures 2.3 Identify and report on monitoring systems and alarms according to workplace procedures 2.4 Recognise and respond to hazardous and emergency situations according to workplace procedures 2.5 Maintain written records according to workplace procedures
3. Carry out operator maintenance	3.1 Carry out inspections and fault-finding activities according to workplace procedures 3.2 Carry out routine operational servicing, lubrication and housekeeping tasks according to workplace procedures 3.3 Carry out minor operator maintenance according to workplace procedures 3.4 Support maintenance personnel during maintenance tasks according to workplace procedures 3.5 Process written maintenance records according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	Identifies and interprets information from workplace procedures, documentation and regulations
Self-management	Monitors and minimises own exposure to worksite risks and hazards during activities

Unit Mapping Information

Supersedes and is equivalent to RIIENV202D Suppress airborne contaminants.
