RIIOGD206D Assist with coal seam gas control

Release: 2

RIIOGD206D Assist with coal seam gas control

Modification History

Release	Comment
1	This unit replaces RIIOGD206A Assist with coal seam gas control
2	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Application

This unit describes a participant's skills and knowledge required to apply assist with coal seam gas control in Coal Mining and Drilling. This unit is appropriate for those working in assisting role.

No licensing, legislation or certification requirements apply to this unit at the time of publication.

Unit Sector

Coal mining

Drilling

Elements and Performance Criteria

1. Plan and prepare for assisting with coal seam gas control	1.1 Access, interpret and apply coal seam gas control documentation and ensure the work activity is compliant 1.2 Obtain, read, interpret, clarify and confirm work requirements 1.3 Identify and address potential risks, hazards and environmental issues and implement control measures 1.4 Select the personal protective equipment appropriate for the work activity 1.5 Resolve coordination requirements with others at the site prior to commencing and during work activities
2. Assist with coal seam gas control activities	2.1 Monitor flows and returns for correct volumes and rates, and report inconsistencies to Driller

	2.2 Assist in operation of coal seam gas control pumps 2.3 Read and interpret measuring devices to monitor correct operation of coal seam gas control process and equipment 2.4 Communicate operational activities and information to other crew during coal seam gas control operations 2.5 Assist in installation and maintenance of equipment 2.6 Participate in emergency drills and exercises
3. Monitor and report safety issues	3.1 Identify, address and report hazards associated with coal seam gas control under varying working conditions 3.2 Recognise kick indicators and advise Driller during coal seam gas control operations 3.3 Identify and report ignition sources 3.4 Identify and report sources and presence of flammable gases and emissions 3.5 Identify and report running coal seam gas control equipment malfunctions

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit. Further information is available in the Resources and Infrastructure Industry Training Package Companion Volume.
