**Assessment Requirements for RIIRAI601D
Establish and maintain the site
infrastructure and fixed plant systems**

Release: 3

Assessment Requirements for RIIRAI601D Establish and maintain the site infrastructure and fixed plant systems

Modification History

Release	Comment
1	This unit replaces RIIRA601A Establish and maintain the site infrastructure and fixed plant systems
2	Editorial corrections
3	Required frequency and volume of evidence amended in Performance evidence. Substantial amendments made in Assessment Conditions field, including: references to Industry Sectors, assessor and subject matter expert experience requirements, how assessment should be conducted and what it should confirm.

Performance Evidence

Evidence is required to be collected that demonstrates a candidate's competency in this unit. Evidence must be relevant to the roles within this sector's work operations and satisfy all of the requirements of the performance criteria of this unit and include evidence that the candidate:

- locates and applies relevant legislation, documentation, policies and procedures
- implements procedures and techniques for the safe, effective and efficient completion of the establishing and maintenance of site infrastructure and fixed plant systems including:
 - accessing, interpreting and applying procedures for;
 - development and review of business plans
 - resource plan development
 - project budget preparation
 - title searches
 - statutory and legal approval applications
 - project management strategies
 - techniques to implement change
 - using appropriate technologies
 - preparation and presentation of management reports
 - negotiation with internal/external customers, community and statutory/legal authorities
 - conflict resolution

- technical information
- site/legislative requirements
- records and reports
- principles of site design
- hazard identification and risk management
- work planning and coordination
- training needs analysis
- using manufacturer's instructions
- maintenance surveys
- works effectively with others to undertake and complete the establishing and maintenance of site infrastructure and fixed plant systems including:
 - managing people and processes
 - resolving conflict
 - coordinating human, financial and physical resources
 - developing, initiating and administering work plans
 - interpreting and applying operational performance data
 - engaging internal and external stakeholders
 - briefings and handover details
- demonstrates completion of establishing and maintenance of site infrastructure and fixed plant system that safely, effectively and efficiently meets all of the required outcomes on more than one (1) occasion including:
 - identification of the relevant information and scope of the work
 - identifying the full range of specification requirements
 - identifying all aspects of the site infrastructure and fixed plant systems
- identification and selection of viable options for the establishment and maintenance of site infrastructure and fixed plant systems that best meet the required outcomes through:
 - accessing, interpreting and applying feasibility analysis
 - analysis of impacts of infrastructure options from relevant technical, operational and financial information
 - analysis of impacts of plant options from relevant technical, operational and financial information
 - providing detailed plans, budgets, financial models, in accordance with the feasibility analysis
 - establishing the audit and review system

Knowledge Evidence

The candidate must demonstrate knowledge in establishing and maintaining the site infrastructure and fixed plant systems through:

- legislative, organisation and site requirements and procedures for;

- risk management
- statutory/legal control
- conducting surveying
- titles management
- organisational change and development
- project management
- computer applications
- financial models
- site design
- mining operations, plant and equipment
- negotiation techniques
- organisational objectives
- planning and strategic management
- resource quantification

Assessment Conditions

- An assessor of this unit must satisfy the requirements of the NVR/AQTF or their successors; and Industry regulations for certification and licensing; and,
- this unit must be assessed in the context of this sector's work environment; and,
- this unit must be assessed in compliance with relevant legislation/regulation and using policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed; and,
- assessment may be conducted in conjunction with the assessment of other Units of Competency; and,
- assessment must confirm consistent performance can be applied in a range of relevant workplace circumstances; and,
- assessors must demonstrate the performance evidence, and knowledge evidence as outlined in this Unit of Competency, and through the minimum years of current* work experience specified below in an Industry sector relevant to the outcomes of the unit; or,
- where the assessor does not meet experience requirements a co-assessment or partnership arrangement must exist between the qualified assessor and an Industry subject matter expert. The Industry subject matter expert should hold the unit being assessed (or an equivalent unit) and/or demonstrate equivalence of skills and knowledge at the unit level. An Industry technical expert must also demonstrate skills and knowledge from the minimum years of current work experience specified below in the Industry sector, including time spent in roles related to the unit being assessed; and,
- assessor and Industry subject matter expert requirements differ depending on the Australian Qualifications Framework Level (AQF) of the qualification being assessed and/or Industry Sector as follows:

Industry sector	AQF** Level	Required assessor or Industry subject matter expert experience
Drilling, Metalliferous Mining, Coal Mining, Extractive (Quarrying) and Civil Construction	1	1 Year
	2	2 Years
Drilling, Coal Mining and Extractive (Quarrying)	3-6	3 Years
Metalliferous Mining and Civil Construction	3-6	5 Years
Other sectors	Where this Unit is being assessed outside of the Resources and Infrastructure Sectors assessor and/or Industry subject matter expert experience should be in-line with industry standards for the sector in which it is being assessed and where no Industry standard is specified should comply with any relevant regulation.	

*Assessors can demonstrate current work experience through employment within Industry in a role relevant to the outcomes of the Unit; or, for external assessors this can be demonstrated through exposure to Industry by conducting frequent site assessments across various locations.

**Where a unit is being delivered outside of a Qualification the first numeric character in the Unit code should be considered to indicate the AQF level
