Release 1	This version first released with RII Resources and Infrastructure Industry Training Package Version 1.0.

Description

This skill set addresses the skills and knowledge to work in supervisor operations in a work zone traffic control context.

Pathways Information

The units provide credit towards a RII30920 Certificate III in Civil Construction qualification and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this skill set can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the skill set.

Skill Set Requirements

RIIBEF402D Supervise on-site operations

RIIGOV401E Apply, monitor and report on compliance systems

RIIRIS301E Apply risk management processes

RIIWHS201E Work safely and follow WHS policies and procedures

RIIWHS302E Implement traffic management plans

Target Group

This skill set is for individuals who work in a work zone traffic control context, and who hold some responsibility for supervising others.

Suggest words for Statement of Attainment

These units of competency from the Resources and Infrastructure Industry (RII) Training Package meet industry requirements for working as a work zone traffic controller, in a supervisory context.
