Release 3

RIISS00047 Stabiliser Support Staff Skill Set

Modification History

Release	Comment
Release 1	This is the first release of this skill set.
Release 2	This version was released with RII Resources and Infrastructure Training Package version 7.0. Version created to fix typographical and/or unit grid errors.
Release 3	This version first released with the RII Resources and Infrastructure Industry Training Package Version 8.0. Substituting superseded units of competency with updated equivalent units.

Description

This skill set addresses the skills and knowledge to work in stabiliser support staff operations in a road stabilisation context.

Pathways Information

The units provide credit towards a RII20120 Certificate II in Resources and Infrastructure Work Preparation qualification and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this skill set can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the skill set.

Skill Set Requirements

RIICCM206E Support plant operations

RIICOM201E Communicate in the workplace

RIISAM203E Use hand and power tools

RIIWHS201E Work safely and follow WHS policies and procedures

Target Group

This skill set is for individuals who work in a stabiliser support staff context, and who work under direct supervision in operational roles.

Suggested words for Statement of Attainment

These units of competency from the Resources and Infrastructure Industry (RII) Training Package meet industry requirements for working as stabiliser support staff, in a resources and infrastructure industry context.
