RIISS00056 Traffic Management Designer Skill Set

Release 2

RIISS00056 Traffic Management Designer Skill Set

Modification History

This version first released with the RII Resources and Infrastructure Industry Training Package Version 8.0.

Substituting superseded units of competency with updated equivalent units.

Description

RIICWD503E Prepare traffic management plans and traffic guidance schemes

RIIRIS402E Carry out the risk management process

Pathways Information

The units provide credit towards a RII30920 Certificate III in Civil Construction qualification and other qualifications that allow for selection of these units.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

This skill set addresses the skills and knowledge to work in traffic management designer operations in a traffic management context.

Target Group

This skill set is for individuals who work in traffic management designer contexts, and who work across a broad range of functions and may be responsible for team outcomes.

Suggested words for Statement of Attainment

These units of competency from the Resources and Infrastructure Industry (RII) Training Package meet industry requirements for those responsible for developing traffic management plans and traffic guidance schemes.
