Assessment Requirements for SFIAQU202 Handle stock

Release: 1

Assessment Requirements for SFIAQU202 Handle stock

Modification History

Release	Comments
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual safely handled and observed aquaculture stock on at least one occasion, including:

- communicating and reporting to supervisor on stock handling activities
- identifying and using personal protective equipment
- preparing and operating stock handling equipment appropriate to stock
- using stock handling techniques appropriate to stock
- completing accurate stock handling records based on observations
- cleaning up work area and storing tools and equipment post-handling.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic characteristics of abnormal and normal stock behaviour
- basic biological requirements and lifecycles of species relevant to stock handling activities
- correct handling techniques for species being handled
- effects that handling can have on stock
- effects of water and environmental conditions on stock
- operation and maintenance of automatic or mechanised equipment
- health and safety practices and biosecurity measures used when handling stock.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an aquaculture workplace setting or an environment that accurately represents workplace conditions

- resources, equipment and materials:
 - stock handling equipment
 - culture or holding structures
 - personal protective equipment
 - stock to be handled
 - data or recording sheets
- specifications:
 - work instructions and workplace procedures for handling stock
- relationships:
 - evidence of interactions with supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
