Assessment Requirements for SFIAQU211 Maintain stock culture, holding and other farm structures

Release: 2

Assessment Requirements for SFIAQU211 Maintain stock culture, holding and other farm structures

Modification History

Release	Comments
Release 2	This version released with SFI Seafood Industry Training Package Version 2.0.
Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has completed at least three different basic routine maintenance and repair tasks to either culture, holding or other farm structures on one or more occasions, including:

- communicating and reporting to supervisor on required maintenance and repair activities
- preparing and safely using the appropriate technology, tools or equipment for the required tasks, including hand and power tools and personal protective equipment
- completing relevant workplace records on maintenance and repair activities
- maintaining work area and tools and equipment after maintenance and repair tasks.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- techniques to repair or maintain structures
- operation of tools and equipment required for maintenance and repair
- types of materials required for maintenance and repair of stock culture, holding and farm structures
- role of personal protective equipment and safe work practices relevant to maintenance and repair activities of stock culture, holding and farm structures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in an aquaculture workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective clothing and equipment appropriate for tasks
 - tools, equipment and repair materials relevant to tasks
 - stock culture or holding structures, farm structures and areas of property in need of maintenance
 - data or recording sheets
- specifications:
 - specific instructions and workplace procedures for repairs and maintenance, including advice on health and safety requirements
- relationships:
 - evidence of interactions with supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
